DETAILED ACTION

Election of Species

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

- 1) the formulation such as the composition comprises an ointment, plaster, a liquid solution, powder, or a gel; and
- 2) a support such as gauze, nonwoven fabric, or polymer foam.

Applicant is required to elect a species of the formulation from the group consisting of: an ointment, a liquid solution, powder, or a gel.

Applicant is also required to elect a species of the support from the group consisting of: gauze, nonwoven fabric, polymer foam or plaster.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply

must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The claims are deemed to correspond to the species listed above in the following manner:

In regard to the formulation:

Claims 1, 3, 7, 8 and 15-21 are directed to a powder.

Claims 1, 2, 7 and 15-21 are directed to an ointment.

Claim 1 and 4-21 are directed to a gel.

Claims 1, 7, 9 and 15-24 are directed to a solution.

Claims 1, 7-9, 15-24, 32 and 33 are directed to a plaster.

In regards to the support:

Claims 1-6, 10-16 and 20-24 are directed to gauze.

Claims 1-6, 10-15, 17 and 20-24 are directed to nonwoven fabric.

Claim 1-13, 15 and 18-24 are directed to a polymer foam.

The following claim(s) are generic: 1.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: In regard to the formulation each species comprise different materials to make each of the formulations. For example a gel is different from a solution or powder insofar as it may comprise a liquid component and a gelling agent whereas a powder does not need a liquid and a solution does not require a binding agent. In regard to an ointment, an ointment may be in the form of a cream which does not necessarily have the components of a gel such as an ointment does not require components such as gelling agents to provide its consistency. In regard to the support, gauze is a fabric material such as textile, whereas the foam is polymer which may be made out of hydrophilic material and is dissolvable in water. Gauze is fabric that is not dissolvable in water. Gauze and a nonwoven material differ because they may be made from different textiles and gauze may be woven.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
